**Cc:** ALJ\_Support ID; ALJ Docket Office; ALJ Process

**Subject:** R.14-10-010: Email Ruling Revising Schedule

Parties to R.14-10-010,

This email ruling revises the schedule for this proceeding, as set forth in the table below. The primary reason for this change is that the Energy Division has requested additional time for preparation of Track 1 revised proposals. Accordingly, the schedule for Track 1 revised proposals, comments,

and reply comments is extended by two weeks. Neither the schedule for Track 2 nor the schedule for LCR and FCR reports in Track 1 are changed by this ruling.

In addition to making the change to the Track 1 schedule, I also am using this email ruling to highlight two upcoming workshops. First, on March 24, 2016, Energy Division will host a Track 1 workshop on load forecasting. This workshop is a continuation of the February 18, 2016 workshop, and will be by webconference/teleconference only. Energy Division will provide additional details about this workshop soon. Second, on April 5, 2016, Energy Division will host a Track 2 workshop on Flexible Capacity Needs and Related Issues. This workshop was previously scheduled for March 30<sup>th</sup>, but the date must be changed. Please contact Donald Brooks and Meredith Younghein with any questions about either workshop.

Therefore it is ruled that the revised schedule for this proceeding is as set forth in the table below.

The Docket office shall formally file this email ruling.

Thank you,  
Kevin Dudney  
Administrative Law Judge  
California Public Utilities Commission  
415.703.2557

*ALJ Division Vision: Just, reasoned, efficient, and innovative resolution of matters in a manner that ensures integrity, due process and transparency, and respects the dignity of all participants.*

### **Revised Schedule for R.14-10-010:**

<b>Date</b>	<b>Track 1</b>	<b>Track 2</b>
Friday, January 15, 2016	Energy Division and Party Proposals on ELCC and Refinements to RA Program	
Friday, January 29, 2016	Comments on Proposals	
Friday, February 05,		Comments on Question 1
